The UKIFDA **GREEN** Award celebrates environmental initiatives within the industry in the light of Clean Growth (reduced emissions) and a decarbonised future.

On a separate sheet in no more than 500 words please identify what has been done to implement a green strategy with positive results and return to ds@ukifda.org.

This could include:

- New technology that reduces environmental footprint either at depot or at consumer premise.
- Implementation of Risk Management policies that have resulted in reduced spills.
- New fuel or additive that reduces emissions either at depot or at consumer premise.
- Supporting charities making a positive impact to the environment.
- Initiatives for reducing waste or recycling.
