

# Are you ready for the government's rural heating plans?

From 2026 you will no longer be able to install a new fossil fuel oil boiler in your home and new regulations may require you to switch to a heat pump - which could cost you around £11,000

We're trialling a **DIFFERENT** way

**Future  
Ready  
Fuel**

## HVO is a renewable liquid fuel for your home

- ✓ Hydrotreated Vegetable Oil
- ✓ Works just like heating oil
- ✓ Reduces carbon emissions by up to 90%
- ✓ Low upfront cost and limited disruption
- ✓ Made from fossil free sustainable waste materials
- ✓ Currently being used in over 100 homes as part of a live demonstration

Visit our website: [www.futurereadyfuel.info](http://www.futurereadyfuel.info)

# Let's have heating choice

With your help we can encourage the government to provide a heating choice for off-grid homes like yours

Join the **Future Ready Fuel** campaign to voice your opinion and secure your home's future today

## Four simple steps to Future Ready Fuel - act now!

1. Visit our website at [www.futurereadyfuel.info](http://www.futurereadyfuel.info)
2. Download our template letter supporting HVO
3. Update the letter with your details and thoughts
4. Email (or post) the letter to your local MP

## Thank you... and spread the word!

Thousands of people have already joined the campaign to secure a fair, renewable future for rural homes.

Visit our website at [www.futurereadyfuel.info](http://www.futurereadyfuel.info) to learn more about the campaign and the 100 homes currently trialling HVO.
