The UKIFDA **GREEN** Award celebrates environmental initiatives within the industry and this year we are looking for businesses totally committed to achieving a decarbonised future and able to demonstrate an outstanding environmental performance.

On a separate sheet in no more than 750 words please identify what has been done to implement a green strategy with positive results and return to ds@ukifda.org.

This could include:

- Initiatives for reducing waste or for better recycling
- New technology that cuts carbon emissions at a depot or residential property
- New fuel or additive that cuts emissions at a depot or residential property
- Risk management policies that reduce spills
- Support for charities making a positive impact on the environment
